Sam Placeholder

Backend Developer (Node.js)

Manchester, United Kingdom
sam.placeholder@example.com · +44 7700 900123
https://github.example.com/sam-placeholder

Summary

Five years building web back ends in Node.js and TypeScript, with React on the front end.

Skills

Node.js, TypeScript, React, Next.js, PostgreSQL, SQL, Knex

OpenAI API, Playwright, Git, Linux, Bash, Expo

Experience

Senior Backend Developer — Example Widgets Ltd

Manchester · January 2022 – present

Built Node.js services on PostgreSQL, with complex joins and schema migrations written with Knex. Integrated the OpenAI API to classify support emails. Daily use of GitHub Copilot, with a review of every suggestion. End-to-end tests with Playwright.

Full-Stack Developer — Placeholder Apps

Leeds · June 2019 – December 2021

React and Node.js features, and a small Expo mobile app for field teams.

Education

BSc Computer Science — University of Nowhere

2016 – 2019

Languages

English: native

French: intermediate (B1)
